

## CIOs and senior IT leaders in India's large and mid-sized enterprises, it distills the

**About the Book** 

hard-earned lessons and forward-looking strategies of those who have been shaping the future of enterprise technology. This initiative, led by CIO&Leader—the flagship B2B technology platform of the 9.9 Group—in collaboration with Dynatrace, a global leader in AI-powered observability and automation, brings together the perspectives of 35 senior technology leaders across industries. The conversations that inform this work were not about abstract

**FUTURESCAPE 2025** is more than a book— it is a strategic blueprint for technology

leaders navigating the next wave of intelligent digital transformation. Conceived for

trends. They were about execution: how to align observability, automation, DevOps maturity, and Al-driven operations directly with measurable business outcomes.
