Delegate Feedbacks

"I attended the session today, and I was highly impressed with the well-organized structure maintained by Tata Communications & CIO&Leader from registration and ID distribution to the professional agenda and materials provided. Having worked with companies abroad in the UAE and the US, I must say this level of organization and professionalism truly stands out."

Regan Perumal

Chief procurement Manager, Star health and allied insurance

"This insightful event organized by CIO&Leader in collaboration with Tata Communications was truly valuable, especially as we transition from on-premises to cloud, offering great learnings on both technology and presentation for management."

B. Sivakumar

Senior Manager – Engineering Information Systems at Lucas TVS.

"The session was truly informative, especially the use case discussion that demonstrated how to solve challenges within a short time using the right technologies, helping us stay focused and explore effective solutions."

Navarathanavel Rajendran

Lead - Datacenter & Networking, Ashok Leyland Ltd.

"The event was an excellent blend of technology, use cases, and business insights, offering valuable learnings on how CTOs can present technological solutions and their business benefits to management, while showcasing TCL's evolution from an ISP to a platform developer supporting enterprise growth."

Sarveswara Rao D

Lead - Datacenter & Networking, Ashok Leyland Ltd.

"The session was very informative, highlighting Data Communication's extensive service offerings, including connectivity, data pipelines, and AI-enabled capabilities. We look forward to engaging in deeper interactions with the team in the future"

Venkat Krishnan

Senior VP, Mindsprint
